<Step by Step Guide>

1) Cut off 1/3 of the screw parts, and bend it L-shape with some flat pliers so as not to drop off from the clay.

2) Divide 7g of the clay into half, and fill it into the horse shoe and pigeon moulds. Trim any extra clay with a spatula.

3) Insert the Flat Screw Eye into the clay while the clay is still soft, and dry.

4) Trim any burrs with a medium fine file, then smooth the surface with a red sponge sanding pad (#320-600) and fire.

5) After firing, bend the head of the Flat Screw Eye upward with some flat pliers etc.

6) Polish the entire piece with a stainless steel brush, and make a mirror finish with a sponge sanding pad or a burnisher. Finally, polish using a polishing cloth with some metal polish.

7 Attach the charms to a chain with a medium Round Jump Ring, and finish.
